

HELPING YOU  
TO SECURE  
YOUR CARGO

L4V CARGO SECURITY RANGE

**LOCKS4VANS**

AUTOMOTIVE LOCKING SOLUTIONS

# Reduce risk and optimise your supply chain resilience

Locks 4 Vans is regarded as a dynamic and innovative partner for companies looking to secure their supply chain logistics. We exist to help our customers protect their cargo from criminal attack or theft by delivering an award-winning range of locking and shielding solutions for commercial vehicles.

## L4V CARGO LOCKS

The L4V cargo lock range has been developed as a security upgrade for the logistics sector. The improved locking mechanism and more robust design of these products help to prevent the handle from being forced open.

The more substantial T-Series key and cylinder also reduces accidental key breakage, which is a contributing factor of vehicle downtime.

Exclusive to L4V, these are the only locks of their kind on the market for box body vans, trailers and large trucks.

## L4V SHUTTER LOCKS

The L4V Shutter Locks are made from stainless steel and are suitable for roller shutters or side-sliding doors on HGV's, and Box-Body LCV's.

Whilst they are ideally fitted during body-build operations, these locks can easily be retrofitted to "in fleet" vehicles. The heavy-duty metal ensures security, reliability, and longevity.

## L4V HEAVY DUTY PAN HANDLE CARGO LOCK

## L4V LIGHT DUTY PAN HANDLE CARGO LOCK

### Key features

To be installed at the body-build stage

Integrated L4V high security cylinder

Semi-slamlock operation

Can be keyed alike to other L4V T-Series locks and cylinders
